

All Quiet on the  
Western Front  
Book Soundtrack Project

February 8, 2018

This assignment will require you to pair your knowledge of what we've read so far in All Quiet on the Western Front and your love of music...

You will create

- a soundtrack of three-six songs
- an album cover
- an explanation for each

**DUE TUESDAY, FEBRUARY 13**

To do well on this task, you must prove to me that the songs you have chosen fit the characters, plot, setting, and themes so far in the book.

You may use the template provided to complete the project as required. For you crafty or poor handwriting people, of course, you may type the work or create a more creative final product.

When explaining how each song fits the book, be sure to include as many specific details and quotes as possible.

I will not have heard all the songs you choose. Therefore, it is crucial that you include specific lyrics from the song in your explanations.

You must explain how those lyrics directly relate to a character and plot of the story. It is your job to prove that the song and novel fit together.

## Special Directions to Remember:

- Only one song per artist!
- The more variety in song choice/style the better.
- The cover must relate to the book in a meaningful, thoughtful way.
- The cover should NOT be a re-creation of the All Quiet on the Western Front book cover.

I am most interested in HOW THE SONGS MATCH THE TEXT.

You must prove that songs match text in a clear, mature way.
