The following slide displays the rubric for your presentations. It's simply something to aim for, but I am completely aware that many of you are extremely nervous about speaking in front of the class. If this is you, please see me.

Using a slideshow helps... and the presentation does not have to be long. It does, however need to be thorough and accurate.

Quizzes are optional, and please let me know if you need resources.

Grant, Lukas, Logan and Jenna get a break since they got very short notice...

The My Lai Massacre was one of the most horrific incidents of violence committed against unarmed civilians during the Vietnam War. A company of American soldiers brutally killed most of the people—women, children and old men—in the village of My Lai on March 16, 1968. More than 500 people were slaughtered in the My Lai massacre

A company received word that Viet Cong guerrillas had taken cover in Quang Ngai village of Son My. They entered one of the villages four hamlets, My Lai, on a search and destroy mission, on the morning of March 16. Instead of guerilla fighters they found unarmed women, men and children. The soldiers had been advised before the attack by army command that all who were found in My Lai could be considered Viet Cong or active VC sympathizers and were told to destroy the village.

Dwight D Eisenhower-

Came up with what was known as the DOMINO THEORY

- Means that communist government in one nation would lead to communist takeover in neighboring nations causing them to fall like a perfectly line row of dominos.
- Although he chose to stay out of the Vietnam War- he did support the French troops militarily who were fighting the North Vietnamese. He felt that Vietnam was an important area for natural resources that would be beneficial to the US and other Southeast Asia countries, such as Burma, Thailand and even as far as Japan.
